

gentlemen,

Do with this request as you please but I believe this to be in everyone's best interest.

I believe that the Task Force needs to send a letter requesting that the commissioner of the dept. of Public safety give your committee an apology for the unsafe handling of firearms at yesterday's hearing. Bolts were closed on some rifles and some pistols were waved around the room. There was no way to determine if these weapons were unloaded and safe to display. The members of DPS at the hearing were careless to the extreme and put both the committee and the citizens at the hearing potentially at risk.

I am not the only one who considers the gun handling by DPS to have been unacceptable

Regards
Peter
